There's nothing for it to do except maintain pace, monitor its own internal ecosystems, scan the spectrum for new syncs of le Catalogue; tasks that even a cheap jumpship could run a million times over every second. Malik trusts the Flea to handle the boredom while he clings to the salvaged capsule, still trying to work out why instead of an egress lever, there's a mess of exposed ...

While this is useful, it is important to note that even small proportions of patients lost to follow-up can cause significant bias. One way to determine whether losses to follow-up can seriously affect results is to assume a worst-case scenario for the outcomes in those with missing data and look to see if the results would change. If this method doesn't change the study's conclusions, the ...

Early in President Trump's term, McSweeney's editors began to catalog the head-spinning number of misdeeds coming from his administration. We called this list a collection of Trump's cruelties, collusions, and crimes, and it felt urgent then to track them, to ensure these horrors — happening almost daily — would not be forgotten. This election year, amid a harrowing global health ...
