As a philosophy, however, it also denoted the striving after an independent state of mind and body, imperturbability, and reliance on sensory data as the true basis of knowledge. Epicurus (ca. 341-271 B.C.) founded one of the most famous and influential philosophical schools of antiquity. In these remains of his ...

Essential Epicurus is a compilation of the leftover texts of the great Greek philosopher Epicurus. I had already taken a liking to Epicurus' teachings before I started reading this book, so I might be quite biased, but I still did find a whole lot of relevant knowledge in this book. Although written in the 3rd century B.C., one seeking happiness will, still in this modern age, surely be aided by the wisdom of this book.
