Dynamic Teaming Handbook Starting in the late 1980s at Digital Equipment Corp., as I was working on the first edition of my book, Fifth Generation Management, I invited others to join in discussions about some of the themes in the book. I wanted our meetings to allow those participating to get to know one another personally, and to discover one another's capabilities and aspirations, two key elements I was developing in the book.

The dynamic teaming process described here is build upon the work I have done on "human time consciousness" described in Fifth Generation Management. It is one other approach to creating quality dialogue within and between companies. More and more, companies are regrouping around their core competencies, and then

Fifth generation telepathology systems are dual-modality systems (i.e., digital pathology systems) that combine whole slide imaging (WSI) and real-time dynamic robotic telepathology. Hybrid robotic dynamic/static image telepathology systems were the precursors of fifth generation telepathology systems and can be used as surrogates for fifth generation systems in workflow studies [ 1 - 4 ].

Flynn et al. (2011) proposed the "fifth generation port" (5GP) with the introduction of "port ladder" for customer centric community-focused port. Most existing literature has not focused on the types of container ports. Container ports are key facilitators of international trade development, being a critical node in the context of supply chain management.
