Specifications of the Honda CR60R 1983

The 1984 Honda CR60R is a rare bike since it was only produced in 1983 till 1986 and available in Europe in 1983 and 1984 only. Because of the small production there aren't a lot of these bikes around anymore. I like the bike because it looks a lot like the big bikes from that era. The Honda CR60R will be brought back to showroom state.

In 1983, Honda introduced an all-new racer for the pint sized motocross set. The \$728 CR60R offered decent performance, but was not up to unseating the mighty Kawasaki KX60 as King on the 60cc racers. Offered for only two years, the CR60R remains an odd failure in a decade full of big wins for Big Red.
