The Isis Papers is a good attempt to unlock the keys of this oppressive world. To dismiss her completely is unjust. Please understand the world that created her and her ancestors in this land we call the land of freedom. Many are blind because of the privilege that this system has fostered a reality of false supremacy and/or equality. Wake up. Peace to all Mankind

The Isis Papers: The Keys to the Colors by Dr. France's Cress Welsing is my favorite book. It is a collection of essays written over 18 years; inspired by Neely Fuller's book, The United Independent Compensatory Code. Fuller demonstrated what racism is, and where it functions. However, The Isis Papers shows how and why racism functions.

The Isis Papers is easily and absolutely the most eye opening and mind stimulating book or work I have ever read. It's not about agreeing or disagreeing with all that is posited in Dr. Welsing theory; (obviously the established dominant world system will not give it any props) however if you have ever wondered "WHY" and "HOW" the manifestation of White Supremacy/Racism and its effects on all persons (whites and non-whites) then it is a must read. If nothing else, the awareness of "symbolism ...
