Jace 6 User Manual

The JACE-6 contains a non-user replaceable fuse, soldered on the circuit board. This fuse provides protection from internal shorts or connection to incorrect power supplies. If the fuse circuitry is suspect, contact your regional Tridium office for technical support. See the "Returning a Defective Unit"...

the Commissioning Wizard to configure AX JACE platforms. Instead, you must use the

appropriate Niagara-aAX Workbench, say AX-3.8, and run the Commissioning Wizard on such platforms. NiagaraAX Workbench is generally recommended for all platform operations with AX-3.x JACE controllers. If needed, however, you can use Niagara 4 Workbench to perform some platform operations on AX JACE controllers.
