The new conical mechanical paddle is inspired by the original mechanical group used on the La Marzocco GS - the first dual-boiler espresso machine with saturated groups (1970). This conical valve system assures progressive control of water flow and pressure via an internal orifice, before applying full pressure. The new conical paddle valve controls the pre-infusion while the volumetric pump ...

Eventually you will unconditionally experience additional and achievement by spending more money. again when? obtain you accept that you need to get these all needs after have a lot of money? Why dont you try get something fundamental in the beginning? This is something that will guide you to understand even more in the region of the globe, the experience, some places, in the same way as history, fun and more?
