## [The Database Of International Q](#)

### **The Database Of International Q**

This volume is an analysis by the methods developed by the Q Seminar of the SBL (which became the International Q Project), the procedure for which was that "for each pericope one member collected and sorted the scholarly literature and wrote a first evaluation," to which other members then responded by way of critical evaluation. This volume was developed by a similar procedure, in which the ...

Overview. The international HTA database provides free access to bibliographic information about ongoing and published health technology assessments commissioned or undertaken by HTA organisations internationally. This includes INAHTA members and non-INAHTA members. The database provides a single point of access to information that would otherwise be more difficult and time-consuming to search ...

### **International HTA Database - INAHTA**

INAHTA announces the launch of the international HTA database, which provides single platform to search records of completed and ongoing health technology assessments (HTAs) from around the world. The database was previously produced by the Centre for Reviews and Dissemination (CRD) at the University of York, and this new rebuild

completed by INAHTA includes:
